finement instead of New York.

## PLEASANT EVENT

Was Luncheon and Smoker at  
Avalon Last Night.

The Planters Hardware Company,  
under the auspices of the American  
Steel and Wire Company, gave a  
luncheon and smoker to a number  
of their friends at the Avalon last  
night. The affair was under the  
management of Col. W. A. Wilgus  
and proved most enjoyable to every  
one present. Some old time musi-  
cal selections rendered by Messrs.  
Bartley, Randle, McCarroll, Fruit,  
Yancey and Carroll was a feature of  
the entertainment.

BABY SHOW  
AT THE FAIR

Prizes For Best Physical Speci-  
mens and Not For Pretty  
Faces.

## TO BE SCORED ON POINTS

Four Classes With \$5.00 Prize  
In Each of the  
Classes.

A better babies contest is all that  
the name implies, a contest in which  
healthy, intelligent, wholesome ba-  
bies are awarded prizes, regardless  
of beauty and pretty clothes, al-  
though beauty will be no drawback  
to the baby—for a pretty baby is usu-  
ally a healthy baby. Pretty clothes,  
however, will not count because the  
baby will be undressed before the  
judges see him. His strong, straight  
limbs, his well-proportioned body,  
his bright eyes and his intelligence  
will be splendid assets for him dur-  
ing the examination.

The baby show is an old story at  
State and County Fairs, but because  
beauty is a matter of personal taste  
with the judges then there was much  
jealousy, ill-will and many heart-  
aches among mothers. The Wo-  
man's Home Companion was a leader  
in this rational, sensible movement.

The women's clubs all over the  
country took it up and now parents  
use the knowledge gained by these  
accurate tests and measurements to  
diet and develop their babies and  
make them stronger and healthier.  
Physicians took up the new idea and  
all over the nation there is intelli-  
gent discussion of the problems of  
child-rearing and the development  
of the human race.

Through the liberality of several of  
our generous and progressive citi-  
zens the amount of \$20.00 has been  
subscribed for prizes for the win-  
ning babies in the Baby Health Con-  
test. This is in addition to the prize  
of a silver cup which is offered by  
the Civic League as a sweepstake  
prize. This money will be divided  
into four prizes of \$5.00 for each  
age, one year, two years, three years  
and four years babies.

Entry cards may be obtained at  
Frankel's store and Hardwick's jew-  
elry store.

These may be filled out and left at  
these respective stores. This is done  
as a convenience to those wishing to  
enter. All entries will close on Sat-  
urday preceding the fair.

## BOY SUDDENLY ILL

Fell to Sidewalk Unconscious  
For Awhile.

Douglas Baker, aged about 13,  
fell to the sidewalk on West Nine-  
teenth street last Monday. He be-  
came ill very suddenly and no one  
being near as he was walking he re-  
mained on the sidewalk until Mrs.  
Sue Cravens saw him and called his  
people, who carried him home and  
summoned Dr. Stone. Dr. Stone's  
diagnosis disclosed the fact that  
pleurisy had gotten hold of the boy.  
He has always been delicate and the  
chances are all against him, as he is  
said to use cigarettes to excess. He  
is a son of the late Wm. Baker, who  
died during the summer.

## Organized Charity.

During the rush of this busy week  
don't overlook the meeting to be  
held at the Christian church tonight  
at 7:30. The meeting has been cal-  
led for organizing a society for united  
charities. This means helping the  
deserving poor and the elimination  
of indiscriminate giving to many al-  
together undeserving.

Mrs. C. M. Donaldson, who spent  
the summer at Cerulean, has return-  
ed home.

TOBACCO  
SITUATION

Conditions Unknown in The  
Trade For Half Century,  
Now Prevail.

## CROP MAY BE CORNERED

The Stocks Will Be Exhausted  
By The First Of  
January.

The dispatch given below was sent  
out from Lexington last Monday.  
They are the words of one of the  
best informed men in Kentucky, E.  
T. Roberts, tobacco expert and stat-  
istician. He says that manufactur-  
ers are confronted with conditions  
unknown in the history of the trade  
for half a century.

Tobacco raisers in the black patch  
can draw their own conclusions as  
to what the effect will be as to prices  
of heavy tobaccos. The crop this  
year has been estimated at 80 per  
cent. of an average crop, some put-  
ting it at 90 per cent. With the  
Burley tobacco all used up by Janu-  
ary 1st the calling by manufacturers  
for the lighter part of the black  
patch, will naturally affect prices  
very considerably.

Here is what Mr. Roberts says  
about the situation, but notice he  
does not say a word about future  
prices. He is speaking of the crop  
situation only:

Wide-spread drought resulted in a  
short crop. He says that all the  
stock of Burley held by the Cincin-  
nati and Louisville dealers will have  
been exhausted by January 1, next,  
depriving the small manufacturer of  
his source of supply to a great ex-  
tent. There is no old tobacco, he  
said, in the country and large manu-  
facturers have only enough to run  
them for a year.

His report includes the significant  
statement:

"Beyond doubt the 1913 crop of  
tobacco is from \$50,000,000 to \$55,000,-  
000 pounds short of absolute annual  
requirements, which will mean that  
there will be most strenuous efforts  
put forth by large manufacturers to  
corner the available supply, result-  
ing in the keenest competition and  
soaring of prices.

## BUSY SUMMER

In Office of County Court Clerk  
Stowe.

County Clerk Stowe has submitted  
his report covering the period from

## Two More Pensioners.

The number of pensioners in  
Christian county who will partici-  
pate in the distribution in November  
has been increased by two. The  
state board of Confederate pensions  
allowed several other claims last

Weaver and Mary V. West, of this  
county.

## ORGANIZATION EFFECTED

County Medicos and Civic  
League Are United On  
Proposition.

There is but little to be said about  
the joint meeting of the Christian  
County Medical Society and the Civic  
League, held Monday at The Avalon.  
Several addresses were made and  
everybody favored submitting the  
question of declaring Christian coun-  
ty a tuberculosis district to the vot-  
ers at the regular November elec-  
tion. In order to do this Drs. Lackey,  
Barker and Sandbach were appointed  
a committee to prepare and present  
a petition to County Judge Knight  
to have the question before the vot-  
ers in the legal way.

## HOLMAN-WEST

Popular Young Soldier Cap-  
tures a Charming Bride.

Lieut. Herbert E. Holman and  
Miss Ida S. West surprised their  
friends Monday night by a quiet  
home wedding at the residence of  
the bride's parents, Mr. and Mrs.  
Chas. E. West. Rev. C. M. Thomp-  
son, of the First Baptist church,  
officiated. They went the same  
evening to the home of the groom's  
parents, Mr. and Mrs. James Hol-  
man, near the city, and on Tuesday  
went to house-keeping on South  
Walnut street. Lieut. Holman is  
an officer in Co. D. and a prescrip-  
tionist in Cook's drug store. His  
pretty bride was formerly cashier in  
the same store.

## FAIR MARSHAL

Directors Met Yesterday and  
Selected R. C. Chilton.

Robt. C. Chilton was in the city  
yesterday and attended a meeting  
of the Directors of the Pennyroyal  
Fair. Mr. Chilton agreed to act as  
Chief Marshal during the fair, but  
was a little slow in accepting, as his  
health has not been very good for  
some weeks. However, he is again  
getting in good shape and hopes to  
do his part in making the fair a suc-  
cess. Mr. John H. Williams, another  
good man, agreed to act in Mr.  
Chilton's place or assist him if nec-  
essary. Mr. Chilton was marshal  
and a prime factor of the Pembroke  
Horse Show for many years.

## LOST \$10,000

Weather Clerk Lined Up  
Against State Fair.

Just imagine how awful a awful it  
will be if the weather clerk dishes  
out bad weather for the Pennyroyal  
fair, as he did for the State Fair  
at Louisville. Secretary James L.  
Dent says the fair lost \$10,000 be-  
cause of weather conditions. Let  
us trust that we will fare better dur-  
ing the five days and four nights of  
the Pennyroyal Fair.

## Ill But Five Days.

The little son of Mr. and Mrs. L.  
E. Fraser, aged 5 years, died last  
Tuesday morning a little after 12  
o'clock, after an illness of five days.  
He was taken with fever last Thurs-  
day and gradually grew worse. He  
was a grandson of Geo. W. Walker,  
of the police force.

Two Meetings Scheduled For  
the First Monday In  
Next Month.

Democratic headquarters have  
been opened in the rooms over W.  
P. Winfree & Sons' office on Court  
street. A warm welcome awaits all  
callers, and the Democrats of the  
county precincts are cordially invit-  
ed to visit and use the rooms while  
in the city.

The speaking campaign in Chris-  
tian will begin Monday, October 6.  
Both at 1:30 in the afternoon and at  
7:30 at night Democratic orators  
will address the voters at the court-  
house.

the afternoon and Judge J. T. Han-

C. Duffy and Ira D. Smith will be

ning W. R. Howell, James Breathitt,  
Jr., and L. E. Foster will speak.

## SPOUSE'S OPENING

Drew Large Crowds All Day  
Tuesday.

It's an off day with everybody  
when the O. G. Sprouse Company  
have nothing special to offer their  
patrons. The irony of fate was  
quite evident last Tuesday, which  
was the opening day with the "walk  
a block and save a dollar" store.  
The band that was to furnish music  
for the big day missed getting on  
their train just five minutes Tues-  
day morning and did not arrive.  
But that made no difference, the  
opening was on, the crowds were  
there and such a display of ladies'  
ready-to-wear suits, cloaks, novelties,  
etc., has not been equaled by any  
former opening at Sprouse's. They  
they just had everything going their  
way on East Ninth street and every-  
body was delighted. That's the  
Sprouse way of doing things, you  
know.

## NAT GOODWIN

Will Be Seen in a Special Fea-  
ture at the Rex To-  
morrow.

The management of the Rex Thea-  
tre will present Nat Goodwin in a  
3-reel film tomorrow. Few, if any,  
of our citizens have ever seen Mr.  
Goodwin on the stage, but tomorrow  
they can see him in "Oliver Twist"  
just as natural as life. This is a  
chance to see one of the best actors  
of the present time and doubtless  
the Rex will be crowded at both per-  
formances.

## Pythian Grand Lodge.

The following representatives of  
Evergreen Lodge No. 38 will attend  
the Grand Lodge meeting Knights  
of Pythias at Lexington Sept. 30, in  
its 40th annual session: Jouett  
Henry, supreme representative; L.  
H. Davis, grand inner guard, and  
G. H. Champlin, Will Stowe, A. M.  
Coleman, J. W. Tunks, Herman  
Johnson and George Walker, dele-  
gates from Evergreen Lodge.

About 400 delegates from the 200  
subordinate lodges throughout the  
state have been elected to attend and  
a great many take their wives and  
friends and fully 1,000 are expected  
to attend the meeting.

COUNCIL  
MATTERS

Busy Session Dealing With Re-  
ports Last Monday  
Night.

## THE CITY'S LITIGATION.

Contract Let For Concrete Side-  
walks On West Seven-  
teenth Street.

The Council held its regular meet-  
ing Monday night, postponed from  
Friday night. Reports of various  
kinds took up most of the time.

Mayor Meacham reported that the  
excavation from the Eiks Building,  
from which 450 yards had been tak-  
en, was sold to the city by Wool-  
drige & Co., their bill paid  
being for 1,172 loads of dirt  
at 12 1/2 cents a load, the excess of 610  
loads being \$76.25. Wooldridge &  
Co. were cited by motion to appear  
before the Council Oct. 3, to explain  
the bill, before other steps are taken.

The Mayor recommended that the  
State Inspector be called upon to  
make a thorough examination of all  
city accounts and that any irregulari-  
ties be straightened up before the  
present Council turns over the city  
affairs to its successors.

Councilmen Metcalfe and Bradley,  
the committee appointed to investi-  
gate the West Kentucky Orphans  
Home, reported that the Home con-  
tained 18 children that were very  
needy and poorly cared for and that  
the appropriation of \$25 a month by  
the city was very necessary to help  
care for them. On motion the dona-  
tion was continued—provided no more  
children be received for the present  
and homes be found for those there  
now as rapidly as possible.

On the recommendation of the Au-  
ditor and Finance Committee, Tax  
Collector John W. Reynolds was given  
his quietus for 1912.  
City Attorney Southall was direct-  
ed to prepare a paper relieving the  
Kentucky Public Service Co. from  
liability for the failure of the wildcat  
whistle to blow in case of fire, the  
company agreeing to operate the  
whistle without charge, with such an  
understanding.

W. H. Hester was awarded the  
contract to build 3,600 feet of con-  
crete sidewalks on West 17th street  
at 12 cents a foot. The city is to  
build this walk for a strip of ground  
donated by H. D. Wallace to widen  
the street. Other property owners  
beyond High street will build walks  
at the same rate.

The question of foul sewers was  
again brought up by Health Officer  
Harned, but nothing was done.

Several erroneous assessments  
were ordered corrected.

Two pavement ordinances were  
given their last passage.

The Mayor submitted the follow-  
ing list of pending suits in Circuit  
Court and the City Attorney discuss-  
ed their status:

## Suits In Circuit Court.

Sept. 29.

Walter Caldwell and James Jones  
were fined \$12.50 each for riding on  
the outside of a train and are now in  
the workhouse. They were hobos  
who were going south.

Lawrence, Kas.—Mr. J. F. Stone,  
of this city, says, "My wife suffered  
for ten years from womanly trou-  
bles, during two years of which she  
was totally helpless. She was ex-  
amined by many physicians, some  
whom gave her up to die. Finally  
she began to take Cardui, and since  
then has greatly improved in health.  
The tonic, strengtheners, and re-

that is claimed for it. Try it for

**Somewhat Contradictory.**  
In America, says the Louisville  
Courier-Journal, a school teacher  
works, upon the average, for about  
half as much as a bricklayer, and has  
to tell the boys that education is a  
necessity if they would get on in life.

EASILY PUT OFF.

Mr. William Dixon, in his book  
on hunting, tells some amusing sto-  
ries. One of them relates to a cer-  
tain Willy Ecclefield, who was a  
whipper-in, and who also acted as  
head groom. He was a fine sporting  
character, and the story emphasizes  
his devotion to sport and to his mas-  
ter. One evening he called at the  
house and asked to see the squire.

"Do you want owt i' t' morn, sir?"  
he inquired.

"No, Willy, I don't want anything  
particularly," replied the squire.

"Well, sir, ah was thinkin' of get-  
tin' wed," Willy explained, "but if  
you want owt, we can put it off!"

THE WORM TURNS.

"I see Mr. Naggs downtown at  
night quite often now."

"Yes. He issued an ultimatum to  
Mrs. Naggs the other day."

"Well! Well! I didn't think he  
had the courage to do that."

"Yes. He told Mrs. Naggs he was  
going to stay downtown till nine  
o'clock any night he pleased, or  
know the reason why."

**The Italian Treatment.**  
The Italians resort to a very simple  
method when they wish to obliterate  
the injurious effects of salt air and  
sunshine after a visit to their villas,  
the shore of the Adriatic, the Tyrrhen-  
ian sea or the lakes. They bathe the  
face with the white of an egg, well  
beaten, let it dry on the skin and  
rinse it off in soft water after fifteen  
minutes. The treatment is repeated  
three or four times, and always at  
night just before retiring.

## Growing in Favor.

The water from the well located on the farm of Luther H. Smithson, near Church Hill, is growing in favor every day. The most obstinate cases of indigestion, constipation and stomach trouble are yielding to the medical qualities of this water by a few days use. Probably half the people who say they have "heart trouble" have nothing but indigestion, sometimes manifestly in an acute form. Try the water from Mr. Smithson's well for a few days and test its virtues for yourself. He delivers it your home at 12 cents a gallon.

Among the many who are using it with beneficial effects we mention: Flem Clardy, Muncey Moss, Roy Kenner, Gus Breathitt, Jno. C. Hoee, J. W. Lander, Rev. E. W. Barnett, Del. Henderson, John C. Gary. See them. Telephone Coates' drug store or call 633, 5 rings. Advertisement.

## Pretty Sure.

If a man who has a product of his own to sell can continue to think well of it after he has interviewed two or three people who are trying to keep him from finding out that they really want to buy it, he is pretty sure to possess the elements of success.

## Don't Let Baby Suffer With Eczema and Skin Eruptions.

Babies need a perfect skin-covering. Skin eruptions cause them not only intense suffering, but hinder their growth. Dr. Hobson's Eczema Ointment can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used," writes Mrs. Strubler, Dubuque, Iowa. All druggists, or, by mail, 50c.

## A Grim Reminder.

"Doctor," said the desolate heavy weight, "give me something to make me weigh less." "That sort of thing merely makes you dangerously ill." "I don't care if it does." "Very well. But I can't see why you should go to all that trouble merely to make labor a little lighter for your pallbearers."

## PROBABLY HE NEVER MISSED

Young Man Felt Himself Able to Answer the Dominie's Question With Perfect Truth.

During a convention in Washington the other evening the topic turned to things ecclesiastical, which reminded Congressman Henry G. Danforth of an incident that occurred in his state.

A new preacher, the congressman said, had been called to one of the churches, and while on his way to the service one Sabbath evening he met a young man whom he had seen on one or two previous occasions.

"Isn't this Mr. Harkins?" asked the dominie, stopping the young man and extending his hand. "I am the new preacher who has just come to town."

"Yes, sir," replied the young man, returning the handshake. "I am Mr. Harkins."

"I have seen you several times," pleasantly continued the pastor, "but until now I haven't had the pleasure of making your acquaintance. I presume that you are accustomed to divine worship every Sunday evening."

"Oh, yes, sir," was the smiling response of the young man. "I am on my way to see her now."—Saturday Evening Post.

## REASON FOR THE LOUD PEDAL

Young Lady Might Have Been Feeling Her Caller, but Dad Was Strictly Wise to the Game.

Somebody remarked that many an innocent act hid an ulterior motive. Whereat Senator William P. Jackson of Maryland smiled.

Recently, according to the senator, a sturdy citizen was sitting on the front porch trying to talk to a friend. Within the parlor the piano was going at full speed.

"Say, Jim," said the caller, bending in order to make himself heard, "is that your daughter playing that piano?"

"Yes," replied the sturdy citizen, with a covert smile. "Some music, ain't it?"

"It certainly is," admitted the caller. "Does she always play so strenuously as that?"

"Oh, no," replied the parent. "You see she has got a young man in the parlor, and she is pounding out the music to drown the sound of her mother washin' the dishes."

## MONKEYS AID ARTIST.

Mr. and Mrs. Pierre Tartoue have arrived here on the steamer St. Paul, after spending their honeymoon in Egypt and South America. Mr. Tartoue, who is a well-known portrait painter, was making a picture of his wife in the jungle when two small monkeys leaped from a tree onto the canvas.

The result was a perfect example of the cubist art, and Mrs. Tartoue, who was Miss Alma Dunworth of New York, is keeping the canvas as a honeymoon souvenir. She brought the monkeys with her, and will present them to the zoo.—New York American.

## HOW A RUMOR GROWS.

"I hear you have inherited a large fortune. Congratulations!"

"Where did you hear that?"

"Why, the report has spread all over town and everybody is wondering what you will do with yourself, now that you are rich."

"Nonsense! A cousin of mine who died recently left me his gold watch and a set of silver spoons."

## HER ESCAPE.

Mrs. Styles—I would rather you would treat me inhumanly than my dog.

Mr. Styles—Why?

"Because the dog can't get a divorce."

## HE WAS THE SMART ONE.

Bacon—That's a smart gown your wife's wearing tonight.

Egbert—Smart nothing! If it was smart it could button itself up the back.

## JUSTIFYING HIMSELF.

"Before we were married you said you were unworthy of me!"

"Yes, you had not heard the old saying: 'At love's perjuries Jove laughs!'"

## CONSOLATION.

"I tell you, I have something on my mind."

"Don't be worried. It's that hanging cobweb in the corner that bit you."

## DRINK QUESTION SPLIT CLUB

Introduction of Beverage Usually Considered Harmless Led to Most Unfortunate Results.

Because some members would rather drink lemonade, lime juice, and such things than discuss Ibsen and Bernard Shaw, the Clonian Literary society at Whitestone, Queens, has been disrupted, a rival society formed, and public opinion greatly agitated, reports the New York World. Most of the prominent members of the town were members.

William Harford, who resigned from the presidency of the society, said that he and others who believed as he did would form a literary club at whose meetings no soft drinks would be served.

"Our club got going finely," said Mr. Harford, "until somebody brought a bottle of lime juice to a meeting. Since then about half the members have paid no attention to the subject under discussion, but have made it uncomfortable for the rest by their chatting over their lime juice. The climax came last week when a lime-juice drinker lay on his back and laughed right in the middle of a serious speech."

A number of clergymen were among those who followed the president's example and resigned.

## LEADS MATES TO THEIR FATE

Old Bull Turtle Specially Trained for the Work and Does It Conscientiously.

Recently A. L. Keller of New Madrid county shipped into Parma from Tallapoosa 85 turtles, aggregating 780 pounds. They will be re-shipped to domestic markets and made into turtle soup. It is some distance from the breeding grounds to the Tallapoosa depot, and it is necessary for Keller to "drive" his flock of turtles several blocks or so before he can load them on a flat-car. One of Keller's pets is an old bull turtle that has been trained as a sort of bellwether to make the trip. Keller ties a piece of red flannel rag around the turtle's neck and points him up the street toward the depot. Then he gives him a shove and hollers "Beat it!" The turtle lights out and the string behind obediently follow the flannel rag. When the old caravan reaches the flatcar the bull turtle eyes Keller, as if asking if he has performed his work aright, and then turns around slowly and wanders back to the breedings grounds.—Parma Victor.

## ARTFUL JOSEPH.

A country gentleman recently had his house fitted with electric bells, and, giving instructions to his servant, he said:

"Now, I want you to understand me clearly, Joseph, that when I ring once I want you, and when I ring twice I want Maggie, the housemaid."

The bell rang. Joseph never moved. Presently it rang again, and Maggie hurried to her master, who was very angry.

"Why didn't that rascal Joseph come when I rang for him?" demanded the gentleman.

"Why, sir," answered Maggie, "Joseph was busy reading the paper when he heard the first ring, and he said to me, 'Now, Maggie, wait and see if the master rings again, and then it will be you he wants.'"

## ASTUTE.

"I thought you said Plumly was a live wire?"

"So he is."

"I have never seen any evidence of it."

"That's just the reason why Plumly is a hard man to beat. He is so carefully insulated that nobody suspects him of being a live wire until it is too late."

## AT THE CLUB.

Bill—I see locusts brought an airman to the ground in France recently.

Jill—Gee! I hope it wasn't policemen's locusts.

## MORE CURB WANTED.

Church—That's an awfully noisy street.

Gotham—Why don't they curb it?

"What? The street?"

"No; the noise."

## CAME NEAR IT.

"Did you ever play polo?"

"No, but I fell off the top of a clothes horse once with a hammer in my hand, trying to fix a gas fixture."

## ALL FIND THEIR ADMIRERS

Like Does Not Always Cling to Like in the Matrimonial Relations Between the Sexes.

Men like all kinds of women, says Robert Hichens in the Strand Magazine. There are ugly men who adore beautiful women, but there are also handsome men who worship at the shrines of women who are quite unlike Helen of Troy. Many good men have loved, and will love, bad women. Who has not seen bad men devoted to saintly women? On the other hand, the dwarf is often captivated by the large-framed woman whose head approaches the ceiling.

I have known deaf women beloved by talkative men; lame women cherished by men who are agile; stupid women thought sensible, or even clever, by men who were brilliant; affected women solemnly admired by the most natural of men; girls who turned the heads of grandfathers, and old women who lured mere boys to their feet.

Effeminate men often seek "manly" women, while the delicate woman who never leaves the sofa attracts the nimrod and hunter of big game. The man who does not know "God Save the King" when he hears it, as often as not marries the woman who is "mad about Wagner," and the man who never goes to church chooses as his helpmate the devout woman who visits a "district" and teaches in Sunday school. All kinds of women are liked—nay, more, are loved by men. Why not? For where is the man who cannot find one woman—if not two—to think him what he probably thinks himself, the most perfect man in the world—until the honeymoon is wanting?

## JEWELL SMITH

### Resigned as Deputy Sheriff To Get Into Political Race.

After serving as deputy sheriff under his father and Lowe Johnson, Jewell Smith has resigned to get into the race for the office of Sheriff, as the nominee of the Democratic party.

During his service Mr. Smith has made friends everywhere. He is courteous to everybody and is going to be missed about the courthouse for a little while, as he is "coming back" as High Sheriff next year.

He was nominated by a very large majority over a popular opponent and his election in November is very generally looked upon as an assured fact.

### The October Smart Set.

Take it from Willard Huntington Wright, the new editor of The Smart Set, the October issue of that magazine is the best and most stimulating which has ever been published.

Whether one agrees with him or not, the contributions are all extremely interesting and mark a very decided departure from the customary namby-pamby stories which are found in the average "popular" magazine. To begin with, there is a story called "The Wedding" by Maarten Maartens, dealing with a strange and unusual marriage on the high seas during a terrible storm. Mr. Maartens is undoubtedly one of the great modern masters of short story writing.

### Shark Hatched In Captivity.

For some time a shark's egg in the Glasgow (Scotland) Aquarium has been watched from day to day. It hatched a few days ago, an event unique in many respects. The tiny shark seems quite at home, and is not a bit shy of the numerous visitors who have crowded to see it.

## DIRECTOR OF ROYAL KITCHEN

King George's Chef, Among Other Attributes, Is Noted for His Executive Punctuality.

One of the remarkable men in the employ of King George of England is his chef. Punctuality is his most striking characteristic, and he has the reputation of being the most punctual man in Great Britain. Just is Big Ben, in the tower of the houses of parliament announces eleven o'clock, an automobile stops in front of Buckingham palace, and a man, who appears to be about fifty years old, alights. He is neatly dressed in the latest Bond street fashion, and always wears a high silk hat. He also wears gold spectacles. On entering the palace he goes to the kitchen. All the cooks and dishwashers, on seeing him, take off their white hats and stand at attention. The chef takes his place at a small desk, and the menu of the king, after passing the inspection of Lord Farguhar, is brought to him. He studies the menu a few minutes, turns it over to the "sous-chef," and leaves the palace. Exactly at 5:00 p. m. he returns, and then takes charge of the preparation of the king's dinner. He oversees the undercooks, ordering them to do this or that, like a veritable commander-in-chief. Sometimes, but very rarely, the king's chef takes a hand himself in the preparation of a special sauce or of one of the king's favorite dishes. His exactitude is proverbial. He never arrives at the palace a minute too soon, nor does he leave a minute behind time.

### AGAIN THE HIGH COST

First Fish—Yes, Mrs. Scales, I never, never saw worms so high as they are today.

### ROMAN ARCHITECTURE.

It was largely their development of the dome and the arched roof in masonry that enabled the Romans to build on a scale of daring and magnificence which has not been surpassed in our modern age of steel. Recent excavations in Nero's palace have revealed five subterranean vaulted rooms in the proximity of the dining room, which were built as fish tanks and used to keep fish alive for the use of the imperial table. The vault and the dome or round roof of the Romans served the purpose of the modern I-beam and latticed roof girder as used by the present-day architect and engineer.—Scientific American.

### MEGALOMANIA.

"Is Dobbs egotistical?" "Yes, indeed. Why, every time he stands on a street corner he thinks he's in public life."

### NOT TO BE RELIED ON.

"Appearances are deceitful," said the ready-made philosopher. "Yes," replied the press agent; "especially farewell appearances."

### BUT WHY NOT THE HUSBAND?

Woman—Yes, I have been happily married for twenty-five years. Manager—Would you consider an offer to appear in vaudeville.

### TRIMMING FOR HATS.

"I see Burbank has perfected several new fruits. He's a useful man." "No doubt in his way. But what a man milliner he would have made."

### IN TRULY ORIENTAL LUXURY

Enervating Conditions Under Which Future Rulers of India Are Brought Up Almost Unbelievable.

A sketch in St. Nicholas tells American boys and girls, under the title of "His Highness the Young Raja," about the lives of some of the future rulers of India.

"It is almost impossible for an American boy or girl to imagine the extravagance and luxury that surround some of these young princes," says Mabel Alberta Spicer, author of the sketch. "Servants attend them night and day, fan them, dress them and obey their slightest wish. If a wind stirs while they sleep, curtains are drawn that they may not be disturbed. When they drive out a mounted escort accompanies them, and all the people salaam as they pass. Once, when taking tea with a raja in his garden, I was amused to notice that, as he moved about among his guests, a servant followed carrying a cup which he kept always within reach of his master's hand. The raja would take a sip of tea, and, with perfect unconcern, set his cup down in mid air. With unfailing dexterity the saucer was placed under it by the servant in time to avoid accident. One prince had, suspended from the ceiling, a silver couch which was kept gently swaying while he slept or read. Another had a beautiful vine-covered arbor where artificial rain was made to fall, while the nabob sat under a marble canopy in the center, cool and refreshed, with the rest of the world broiling about him."

### IN HIS ARMOR OF INNOCENCE

Anthrobal Binks Felt Himself Proof Against the Cowardly Taunts of the Slanderers.

"Darling," she murmured, as she nestled against his shoulder, "do you know that horrid people are saying that you are marrying me for my money?"

He leapt to his feet. "The miserable creatures!" he roared. "I won't stand it. Tell me who they are and I'll horsewhip them! I'll—"

"But, my dear," she objected, "you would create scandal, and the case would be made horribly public in the papers, and then I really could not marry you."

"What, then," he muttered, hopelessly, "can be done?"

"Darling, it is easy," she replied. "I will make over my fortune to my brothers and sisters, and everybody shall know of it. Then no one shall be able to make horrible accusations against you."

But then he drew himself up proudly. His manliness had won a moral victory.

"Nay, Araminta!" he exclaimed. "Do not put thy sweet self to any trouble. Anthrobal Binks is proof against every slanderer!"

### ICEBERGS FOR THE PICKING.

Off the coast of Newfoundland, less than 1,000 miles to the northward of New York city, are floating icebergs big enough to supply the needs of 20,000,000 of people through the hottest of summers. The average man who buys his ice in small blocks has doubtless often wondered why these huge bergs should not be blown up with dynamite and towed down the coast in sections for summer consumption in the large coastal cities of the United States. The Norseman is proposing to do something like this, only he will saw his bergs into small blocks and load them on ships. Thus transportation will be more rapid and loss from melting less.

### SUMMER BOARDER.

"Beautiful view from here, don't you think so?" said the farmer. "Might be," growled the grouchy boarder, "if those windows were scrubbed."

### VERY MUCH SO.

"Did your wife give you a light answer when you rebuked her?" "Yes, sir. She threw the lamp at me."

### ANCIENT'S WOE.

Methuselah was pessimistic. "Age doesn't help you any," he declared. "I now know 800 summer resorts where I don't want to go again."

### SOCIABLE SHAVE.

Hubbubs—Don't you miss a barber out in the country? Subbubs—Oh, no; I talk to myself all the time I am shaving.

### DR. KETCHUM MARRIED.

Gone With Bride to Honolulu To Make Their Home.

Information from an undoubted source, was received here yesterday that Dr. W. H. Ketchum was married about the 15th of this month to Miss DeTunque, of St. Paul, Minn. To a very few people here this information will not be a surprise, as the event has been whispered about for a short time.

Dr. Ketchum gave up his practice here about sixteen months ago, and when he left he had not made up his mind where he would locate. He has traveled most of the time and made a voyage to Honolulu. Part of the time he was under treatment at a hospital for some chronic trouble. His bride was a teacher in Bethel Female College about two and a-half years ago. Mr. and Mrs. Ketchum, just after their marriage sailed from San Francisco for Honolulu where they will make their home, the doctor having qualified to practice there when he made his first trip.

### Circuit Court.

Monday the first day of the six weeks term of court was pretty well taken up in making up and charging the grand jury, empaneling the petit jury and do many little things that have always to be looked after before the machinery of justice is set to running. After administering the oath of allegiance to the three men of foreign birth, heretofore mentioned, the court took up the first of the seven Commonwealth cases docketed for the first.

### TUESDAY, 2D DAY.

There were just 11 Commonwealth cases on the docket Tuesday morning for disposition. Fines were imposed on five of them, as follows: Lee Hancock, \$35; Claude King, \$25; Elbert Wiley, \$25; Fred Spocks, \$10; Samuel Wright, \$25.

The following cases were continued. Bob Bullock, breach of the peace; O. G. Hille, selling pianos without license; Chas. West, malicious shooting. The case against C. E. Conibear and T. S. Winfree, for trespass, was thrown out of court.

### WEDNESDAY, 3D DAY.

There were ten Commonwealth cases set for Wednesday, but the case against K. H. Keach, charged with manslaughter, and the case against Elder, charged with willful murder, were taken up and delayed other proceedings.

### BIASED.

"You are unreasonable."

"Why?"

"You don't believe anything I tell you."

"That's because you are always telling me something about yourself."

### KNEW THE GAMES.

"I've been out there watching the game," said the lady returning to the porch of the summer hotel.

"Are you a baseball fan or only a chaperon, madam?" asked the one nearest her in the rocker.

### DIDN'T AFFECT HIM.

Horrified Old Lady—Oh, kind sir, think of your mother! Think of your mother!

Burglar (sternly)—No use, old lady. I wuz brought up in an incubator!—Puck.

### Dead From a Thorn Thrust.

A thorn of her favorite rose puncturing her finger while she stretched forth her hand to pluck it for a friend's bouquet, caused the death of Miss Susan Reichart at Greenport, N. Y. Several doctors united in trying to cure the blood poisoning that resulted from the piercing wound, but their efforts were unavailing.

### Guarding an Impression.

"Why doesn't that Parisian playwright accept those challenges?" "He's in a predicament. He is a tragic author and can't afford to let the public see him in anything as funny as a French duel."

## COLORED CELEBRATION

Creditable Street Parade and a Mammoth All-Day Program.

The celebration of Emancipation Day Monday by the colored population was an all-day affair. Dr. Preston Taylor, a widely-known negro leader of Nashville, was the speaker of the day and for two hours kept a multitude numbering thousands cheering because of his eulogistic speech which he made concerning the negro and his progress during the past half century.

An industrial parade, participated in by all the leading negro business concerns, secret organizations and churches, was by far the most respectable affair of anything of its kind ever before attempted in Hopkinsville. Many negroes from the surrounding country and adjoining towns took a general holiday and spent the day here. The exercises were held at Mercer Park and the speaking took place from the queen's float, the speaker being introduced by

Lou's Berry, a well-known local colored leader. Among others who participated on the program were: Revs. R. H. Bayliss, G. H. Hubbard, H. S. Smith and Rev. E. Williams. Mary Ella Turner, a colored school girl, who had been elected queen of the emancipation after a spirited popularity contest, read the emancipation proclamation. The first and second prizes respectively, were awarded W. E. Penn and the C. M. E. Sunday school, for the best decorated floats.

The crowd was somewhat lessened by the danger of frost to the outstanding tobacco crop.

Good order was observed all day, there being only three arrests for minor offenses. A game of baseball was played in the afternoon.

The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first class daily.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequaled newspaper and the Hopkinsville Kentuckian together for one year for \$2.45.

## HARD TO BEAT FOR OPTIMISM

Probability That Western Man Is Entitled to the Championship of the World.

Reference was made to the optimism of a certain party in the lobby of a Washington hotel the other night when Congressman Willis C. Hawley of Oregon broadly smiled and said the party in question would have to go some to beat the record of Jim Jones.

Jim Jones, so related the congressman, lives in an eastern suburban town. Some time ago a friend, in passing Jim's house, noticed a hole in the ground and a pile of bricks close by. He wondered, but there was nobody at hand to explain. Further down the street he met another friend of Jim's.

"Say, Jake," queried the first, "what in the deuce is going on down at Jim's? His place is mused up like a building operation!"

"That's what's coming off," answered Jake. "He is building a garage."

"Building a garage?" wonderingly exclaimed the other. "What for? He hasn't got an automobile, has he?"

"No," replied Jake, "but he was walking along the street the other day and found a raffle ticket for one that is to be chanced off."

## LAND OF WINGED CREATURES

Borneo Unique in the Number of Animals, Fish and Reptiles That Navigate the Air.

In Borneo winged creatures are encountered where one would least expect them. Flying fish the size of herrings are found in all the waters, and there is the flying fox, the well-known fruit-eating bat, which the Malays call "kruang." They may be seen almost any evening winging their steady flight, often at a great elevation well out of range of a shotgun. The flying squirrel, as evening twilight comes, is also seen. They glide down from one lofty tree to the base of another, up which they scramble, to the level they started from. Wide expansions of skin between the fore and hind limbs act in parachute fashion and sustain them in their glide. They are of some size, but are quite harmless. The flying lizard is seen in the heat of the day in the jungle gliding down with a flash in much the same manner as the squirrel. But he is much smaller and it requires a quick eye to detect him. The natives kill him with a clay ball shot from their blowpipes.

## ONE-SIDED ECONOMY.

"I understand, Harry," remarked the acquaintance, "that your wife had started to practice economy. The missus was saying something about it last night."

"Yes," replied Harry, "she is practicing economy, all right, and if your wife is thinking of taking a turn in the same direction you had better get busy and head her off before it is too late."

"I don't understand you, Harry," said the acquaintance, with a perplexed expression. "I should regard economy is something to commend."

"Yes," was the smiling rejoinder of Harry, "but not when your wife is buying your shirts at three for a dollar so that she can get herself a \$20 hat."

## THOUGHT DROUGHT BROKEN

Deluge, However, Was Not Natural, and Kansas Man Fearfully Awaits Return of Wife.

"A Clay Center man who lives on the hill was nearly dead with the heat one evening recently when bedtime came, so he opened the window wide and pulled his bed right up against the open place," writes L. F. Valentine. "He went to sleep. Along in the night he awakened with a start. My goodness, it was raining to beat the band. He was soaked, the bed was soaked and dripping wetness, a pool of water stood in the middle of the floor, the curtains were as wet rags and little streams of water were running down them onto the floor. The room was almost like a swimming pool. Up jumped Mr. Man and slammed down the windows, and after fixing up the room a little (his wife was away from home and he was the only person in the house) he retired again, rejoicing in the thought that the drought was broken. But was it? Well, only in spots. Here's the denouement. There are so many water users these days that residents in the north part of town get little water during the sprinkling hours of the evening. Our friend had arranged the lawn sprinkler to give the yard a wetting, but only a little water dribbled out. The sprinkler was close to the window, but that fact was not noticed. Then Mr. Man, not getting any water, forgot about it and went to bed. But along in the night other water users cut off and the pressure came again to the hill tribes. Gradually the pressure became stronger, until water was being thrown clear across the room. The man is wondering what his wife will say when she comes home."—Kansas City Star.

## HAD THE PROOF

Parson Johnsing—De Lawd will pervide fo' his chillen, Brudder Jackson.

Bruder Jackson—Yo' sho' is right, Pahson. Mistah Simpson done built a new chicken house right plumb agin' mah fence.

## SIMPLE EXPLANATION.

"Frost year, fruit year; year of snow, fruit will grow;" "A year of snow, a year of plenty" and "A late spring never deceives," all three of which mean the same thing, are very easily explained. If the winter is a normal one, with plenty of frost and snow, and spring comes at the right time, it is not possible for the fruit trees to blossom prematurely and be later killed by hard frost or destroyed by alternate thawing and freezing. Consequently, all this proverb means, and its meaning is quite obvious, is that normal seasons mean normal fruit crops.

## HIS IDEA.

Bacon—I heard that Miss Fussanfeather complaining of her high color and wondering what would reduce it.

Egbert—Well, I read the other day that two parts of ammonia to one of turpentine will soften old paint and make its removal easy.

## OUT OF DATE.

Yeast—I suppose your wife goes at you with hammer and tongs when you get in late at night?

Crimsonbeak—No, she's cut out the tongs. You know they're not fashionable any more.

## POOR GUESSER.

Patience—Is Will good at guessing games?

Patrice—I think not. He said he guessed I'd learn to love him.

## QUITE THE OPPOSITE.

Barber—Like to have your mustache trimmed, sir?

Freddy—Trimmed? Great Scott, no! I'd rather have it encouraged.

## The Love Letters of a Confederate General

WE begin in the November issue a series of real love-letters written over fifty years ago by one of our national heroes to his sweetheart during the period of '61 to '65. This great general will go down to posterity as having accomplished one of the most brilliant feats of arms in the history of the world. He was as great a lover as he was a general, therefore these letters combine authentic history and exquisite romance. They sound a human note that no other work of literature has done in a decade; it is war, it is romance, it is history, it is literature. You simply can't afford to miss this wonderful series—an inside story of the Civil War now published for the first time and containing all the freshness of a contemporary happening. These letters will grip you hard, and hold your interest from first to last. Fill out the coupon and send it now before you forget it.

## KOREAN COURTS OF JUSTICE

Though There Has Been an Improve-  
ment of Late Their Adminis-  
tration is Still a Scandal.

The Korean judge dispenses justice in the open, and by etiquette only the judge can sit; everyone else must stand, excepting the prisoner and his friends, who are forced to remain in an humble kneeling position with bowed heads. Until quite recently these trials were always very one-sided and shockingly unjust. When a man was brought to a judge, it was taken for granted he was guilty, and, if he did not confess he was tortured and made to do so. Witnesses, too, were openly bribed. In fact, giving evidence for or against an accused person meant a living to a portion of the community, and these witnesses naturally favored those who paid best. Punishments varied. If the prisons were too full, and the condemned could not pay a fine, they were often given a chance to escape, or disappeared by some means. Though these are things of the past, Korean judges, like those of China, possess a poor idea of the use of justice.—Wide World.

## AID TO SKY STUDY.

A celestial sphere, an apparatus designed for instruction in astronomy, and particularly for promoting popular knowledge of the constellations, has recently been installed at the Chicago Academy of Sciences. This device, invented by Wallace W. Atwood, secretary of the society, is the only one of its kind in the world. It consists of a hollow sphere 15 feet in diameter, with minute perforations placed in the correct positions for representing the stars. The sphere is mounted with its axis parallel with the earth's axis, and revolves in a direction opposite to the revolution of the earth, so that the stars and planets seen on the miniature sky of the interior of the sphere have the same apparent movement as the stars and planets of the real sky. With the interior darkened the usual illumination outside the sphere is sufficient to make the star perforations distinct. A pointer carrying a small electric light, which appears as a spark, is used in explaining the constellations.—Popular Mechanics Magazine.

## WHERE JULY IS HOTTEST.

Edwin C. Martin, author of the work, "Our Own Weather," states that the world's record for the highest absolute heat is held by the United States—130 degrees in the shade being registered at Mammoth Tank, Cal. Though this is not a weather bureau record, a record of 128 degrees at Salton in the same region has the weather bureau's indorsement. The highest record in any other part of the world is 127.4 degrees on the northern edge of the Sahara desert, according to "Our Own Weather."

## Mrs. Vest Felt Like Crying.

Wallace, Va.—Mrs. Mary Vest, of this place, says: "I hadn't been very well for three years, and at last was taken bad. I could not stand on my feet, I had such pains. I ached all over. I felt like crying all the time. Mother insisted on my trying Cardui. Now I feel well, and do nearly all my housework." No medicine for week and ailing women, has been so successful as Cardui. It goes to the spot, relieving pain and distress and building up womanly strength, in a way that will surely please you. Only try it once. Advertisement.

## NEW STYLES WERE SHOWN

At the General Opening of the  
Milliners On Last  
Tuesday.

### \$500 DOLLAR PRIZE WONDER

Ideal Weather and Fashions  
Devotees Brought Out  
Throngs.

Tuesday was hat day with the ladies, as the men say, but opening day with the milliners and the devotees of fashion.

The millinery people had their display of ladies' headwear and the fair sex never had more curiosity to find out what the new styles are.

The day was ideal and the ladies were out in full force and made the rounds of the millinery stores. The curiosity of ladies as to millinery is something not to be accounted for.

The displays of the dealers this season are, so the ladies say, "perfect dreams." At Frankel's Busy Store there was a perfect rush all through the day up to the closing hour. The selections were made in New York by Miss Ida Blumensteil, the head of that department, generally admitted as an authority. She visited New York for two solid weeks in order to bring nothing to Hopkinsville that was not the style at the metropolis.

At J. H. Anderson & Co's., a house that caters to the most fastidious, crowds filled the large rooms and stood for hours admiring the many creations that millinery artists had wrought out during the past six months. The duplicates of the \$500 prize hat that was brought out by the liberality of the publishers of the Ladies' Home Journal, were admired by hundreds. Miss Annie Cayce, the head of the department, said yesterday that, as a rule, hats are smaller than last year and black is the predominant color. Ostrich plumes in different shades are just a little in advance of flowers, velvets and plushes are the materials mostly used in New York. The Chicago purchases were selected by Miss Sarah Cayce, a sister of the head of the department. In the last two years she has displayed unusual taste in millinery and her selections have been greatly admired. She had carte blanche from Mr. Bell to select any and everything that would please the trade and she has reason to be proud of her purchases.

Miss Fannie Rogers, with her many years of experience, was in a position to sustain her reputation as a leading milliner. She and Miss Nora Rogers went to the city and saw for themselves what changes Dame Fashion had decreed for this season. Every change in shape, size, trimming and general effect was noted and the display Tuesday was more than equal to any shown for some time. As usual, Miss Rogers' rooms were crowded during the day.

A new claimant for patronage in the millinery line is Miss L. Barker, who has just opened a lovely display of goods in that line. She had good reasons Tuesday for encouragement for the hundreds of ladies out for seeing, made their first call on Miss Barker and enjoyed one of the best displays of the day.

Monthly savings can be made to earn six per cent interest, net, by investing them in stock of the Hopkinsville Building & Loan Association.

## W. R. Brumfield May Start Market Garden on Large Scale.

W. R. Brumfield, and C. O. Wright left Monday for Florida. Mr. Brumfield, the pioneer market gardener, is seriously considering starting a garden near Palatka. This does not mean that he will abandon his garden near this city. With a competent manager in Florida and dividing his time between the two he will make a success of both of them. He has many years experience and is a man of tireless energy. He has seen the large tract of fertile Florida land he is contemplating buying and is making the second trip to look over conditions generally.

The charger led at the funeral of a cavalry officer is a relic of the custom when a horse was sacrificed at the grave. An officer led the charger behind the bier to the brink of the grave and it was there slain and thrown upon the coffin. The last occurrence of this kind took place at Treves, Germany, in 1781.
